

Embalmer's Clay

The following is the information concerning this organic plant:

Appearance

Waist-thick stalk that slightly thins at its 5' (mature) rounded top. Arm-thick branches stem horizontally out in all directions, bending and circling in its own unique way (almost as if writhing in the throes of pain. Each hand-sized leaf is 2" - 3" thick.

% chance to locate per 24 hours: 10%

of checks per 24 hours: 2

Classification: Plant.

Color: The plant is gray in its natural or prepared form.

Location: Surface. This clay is only found within an oasis within a water source.

Maturity: 40 years.

Regional habitation: Deserts.

Smell: Mud.

Uses found: There will be 1-D4 +3 x10 branches and 1-D4 +3 x10 leafs on each branch at full maturity.

Value per use: 2 black-gold, 5 yellow-gold.

Taste: Cactus (semi-bitter)

Texture: Like smooth rubber.

Explanation

Embalmer's Clay plant is a good source to create molds, armor, shields, statues, and other items that are as strong as krakkin-steel metal.

If at least 10% of the leaves are not left upon this plant, it will die.

The plant takes 40 years to mature, yet the leaves take only 10 years.

If the plant itself is not 40 years old, Embalmer's Clay cannot be created from it.

There will be a 50% chance of finding a mature plant.

Area of influence: Not applicable.

Damage: None.

Duration of effects: Permanent.

Effect time: Embalmer's Clay will harden in normal weather conditions in 1-D4 +3 hours.

Effects: Once prepared it will be as a sturdy clay that will dry and harden within 1-D4 +3 hours. Once dry, Embalmer's Clay must be cut and sawed into to get through it.

Healing: None.

Immunities: None.

Maximum adjustments: Not applicable.

Overdose symptoms: None.

Range of influence: Not applicable.

Resting time: None.

Side effects: None.

Used for: Casting (as in casting a broken arm or leg).

Preparation

None. When Embalmer's Clay dries it will solidify as strong as krakkin-steel plate. This plant needs only to be chopped up finely and boiled. It will become clay-like, once it dries, it hardens.

Avoidance-roll: Not applicable.

Measurement per use: To make a full set of plate-like armor for a 6' person, 120 leafs must be prepared.
