

Shields, Magic:

Magic Shields are shields that have been spell-bound to help aid the user against attacks.

Each grade point of a Magic Shield will increase the wearer's defense by +3

Each grade point of a Magic Shield will increase the value by 50 white-gold. Example: A Grade-1 Magic Shield is worth 50 W.G., Grade-2 is worth 100 W.G., Grade-3 is worth 150 W.G., etc. This is only the GRADE value of the shield. The shield itself is valuable as well.

Magical Shields will heal up 1 point of damage per section per hour while in the direct sunlight.
