

# Treasure items, Starting out with:

A roll of 71+ is needed to have a treasure item. You may keep rolling as long as you roll 71+ (when you fail to roll 71+ three times, you are finished). You will only get 1 single item per check, not multiples.

Roll the the item, or items, you will get, starting out by rolling on the **UnCommon Chart** (never the common chart for starting items).
