

# Weapons, Magic:

Magical Weapons are weapons that have been spell-bound to cause more damage, and forge a stronger durability into the weapon. Sometimes it takes a magical weapon to harm a certain creature.

1

For every rank of a Magic Weapon the damage caused by that weapon will increase by one.

2

Each rank of a weapon is worth an extra 500 white-gold.

Example

A Rank-1 Magic Weapon is worth 500 white-gold

A Rank-2 Magic Weapon is worth 1,000

A Rank-3 Magic Weapon is worth 1,500

A Rank-4 Magic Weapon is worth 2,000

This is only the rank value of a weapon . . . the weapon itself is valuable as well.

Rank-0 means non-magical.
