

Molding Ball (Recipe)

Create the Enchanted Item, “Molding Ball” to aid in the use of opening keyhole locks.

Modification-point cost: 40

Recipe Instructions:

1. Grind 1 use of fresh Palipar Root into a smooth paste, then add and 1 use of Kurin Fungus to the paste and knead until the two are equally mixed. Once the two are equally kneaded together, the moistened clay must be completely and quickly wrapped in the leaf of the enchanted Malorn Vine. See: “Malorn Vine” in the O Section of the Creatures Book (it is an “Organic” creature).
2. Let the mixture set for 1 moon (30 days) in total darkness. It must also be cool, but not freezing.
3. After 30 days, remove the now light-gray clay.
4. Now the enchanter’s spell, “Transpose” must be cast on the Molding Ball to finish its creation. After this spell is cast, the Molding Ball will now be ready to use (fully charged).

Recipe Value: 25,000 white-gold
